PROJECTS

E-Commerce-smart-shop

The project is an e-commerce platform aimed at selling products online. The project includes a set of features and functions such as displaying products, shopping cart, purchase process, search, filtering, etc. that facilitate the electronic shopping experience for users.

Project techniques: React.js | ReduxToolkit | sass

GitHub   Live

Instagram

I developed the Instagram project. The project is an identical copy of the famous Instagram application. When logged in, it allows users to view the profile, share photos and videos, search, explore, and interact with other people's posts.

Project techniques: React.js | ReduxToolkit | Css
